Student Counseling Policy

Salish School of Spokane has the goal of providing the best educational experiences possible, designing and implementing a variety of educational, cultural and social programs to meet the unique needs of each of our students. Our goal is for our students to have a strong, healthy sense of self, to be confident, life-long learners, and to be cultural leaders who serve and empower their communities. In keeping with these goals, our teaching and social services staff will meet with students from time to time in order to assist them in their personal, educational and social development, including offering academic, cultural, social and personal counseling. Academic, cultural and social counseling will be performed by instructional, cultural and administrative staff, and personal counseling will be performed by licensed school or therapeutic counselors or counseling interns under the supervision of SSOS staff. In general, parents will not be contacted prior to their students receiving routine counseling at school. If students are identified as having an extraordinary need for therapeutic personal counseling, SSOS administration will reach out to parents and notify them of such counseling services so that parents are aware of the counseling services being provided by the school and can be part of the plan to assist and empower their child.

I, _____, the parent or guardian of _____ do hereby acknowledge receipt and understanding of the above SSOS student counseling policy.
